

CERTIFICATION COURSE IN ULTRASOUND IN GYNECOLOGY

Gynecology Academy is pleased to announce a 4-month certification course: *Ultrasound in Gynecology*.

Details of the course are as follows:

COURSE FACULTY: *Dr Mala Sibal & Dr Sonal Panchal*

The faculty are experts in the field of gynecological ultrasound. They have authored research articles and books on the subject and are passionate teachers and have trained several doctors in Gynecological Ultrasound for well over a decade.

COURSE STRUCTURE:

The course is scheduled from September 2nd to December 17th, 2017.

The subject matter has been sub-divided into modules which will be covered in 4 sessions.

The course may be taken either online or onsite.

Online Course: Every month 2 to 4 modules will be made available online for a period of about 2 weeks (includes 3 weekends). Online learning is a convenient and self-paced way of acquiring specific knowledge and expertise in gynecological ultrasound, at the convenience of your own time and place.

Onsite Course: The course will be conducted in Bangalore, on one predefined weekend (Saturday & Sunday) each month, for the 4 months (i.e., 8 days of training). This will most likely be the 1st weekend of every month. Based on availability, live demonstration of a few cases will be conducted. In addition to this, those attending the onsite course will have access to the online lectures for another week.

COURSE CONTENT:

The subject matter has been divided into 11 modules and each module consists of multiple lectures. The modules are as described below:

1. GENERAL TECHNIQUES IN GYNECOLOGICAL ULTRASOUND: Ultrasound Settings and Technique, Scanning the Pelvis: Basics (TAS & TVS) along with Tips and Tricks, 3D Ultrasound, Doppler In Gynecology and Special Ultrasound Techniques (Sonohysterography & Gel Sonovaginography)

2. ULTRASOUND EVALUATION OF THE MYOMETRIUM: MUSA, Fibroids, Sarcoma and Adenomyosis
3. ULTRASOUND EVALUATION OF THE ENDOMETRIUM: IETA, Endometrial Polyps, Endometrial Hyperplasia, Endometrial Carcinoma, Asherman's Syndrome, Endometritis and Intra uterine fluid
4. ULTRASOUND EVALUATION OF THE CERVIX & VAGINA: Benign and malignant conditions of Vagina and Cervix
5. ULTRASOUND EVALUATION OF OVARIAN & ADNEXAL PATHOLOGY: IOTA Terminology and Evaluation, Spectrum of Ovarian Masses- physiological, non neoplastic, neoplastic (epithelial & non epithelial), Fallopian tube malignancy, PID, Paraovarian and Peritoneal pathology
6. SPECTRUM OF ENDOMETRIOSIS: Ovarian Endometrioma, Deep Infiltrating Endometriosis and Extra Pelvic Endometriosis
7. ULTRASOUND EVALUATION OF PREGNANCY RELATED PATHOLOGIES: Spectrum of Ectopics & PUL, Retained Products of Conception and Gestational Trophoblastic Disease
8. TORSION & ACUTE PELVIC PAIN: Ovarian Torsion & Non- Ovarian Torsion and Other Causes of Acute Pelvic Pain
9. ULTRASOUND IN INFERTILITY: Cycle Assessment in infertility and ART, Tubal Assessment, Polycystic Ovaries and Oocyte Retrieval & Embryo Transfer
10. ULTRASOUND EVALUATION OF CONGENITAL UTERINE ANOMALIES
11. ULTRASOUND IN OTHER MISCELLANEOUS CONDITIONS: Uterine Vascular Abnormalities (AV Malformations), Perforation of the Uterus & Vesicouterine Fistula, Caesarean Scar Defect & Retroflexed Uterus and Intra Uterine Contraceptive Device

SPECIAL FEATURES:

- A comprehensive coverage of all topics in gynecology including Infertility. This includes basic and advanced training in the subject. Various techniques of evaluation and rare pathologies have also been included.

- The lectures include abundant images and numerous videos. Videos are essential because transvaginal scanning is a dynamic & interactive examination, that can only be captured and explained well with the help of videos.
- Self-assessment at the end of each lecture to test knowledge acquired.
- Answering questions and clarification of doubts on material provided, for both online and onsite courses.
- Access to online lectures for an extended period of time to allow self-paced learning and revision of talks and videos for in-depth learning.
- Online submission of images for assessment.
- In addition, we also have an optional test at the end of the course to certify that the student has a sound understanding of all aspects of Gynecological Ultrasound. For online candidates, the test will be conducted in person, either in Bangalore, or in a nearby city, if there are sufficient candidates.

PROSPECTIVE AUDIENCE: Gynecologists, radiologists, and sonologists who are practicing ultrasound and are interested in learning or enhancing their knowledge in Gynecological Ultrasound.

CERTIFICATION: The certificate provided at the end of the course, by the Academy, will be of three types:

Certificate of Participation: On enrolling for the course.

Certificate of Completion: If the images have been submitted as specified and 75% of lectures have been attended (onsite delegates)/self-assessment done (online delegates).

Certificate of Competence: In addition to the above, if the candidate has passed the test at the end of the course.

COURSE FEE: Rs 80,000 + taxes

The online candidates who desire to do the optional test at the end of the course so as to obtain the certificate of competence, will be charged an additional fee of Rs 5000.

First 50 applicants will be eligible for a special 10 % inaugural discount.
